Comments: The James Hardie siding is great! The painting was exceptional and fast! However the siding crew somehow disabled our cable service which I was told would be taken care of. It wasn't, and then became my problem to deal with. The siding crew also severely damaged my outside chimney pipe, which they also didn't claim responsibility for. GS is now "waiting for parts" to repair. The leaf guards I had repeatedly requested were not installed until after a hailstorm had loaded the new gutters with debris. My recommendation is: Always, Always, take lots of before pictures and inspect closely every day!
